CORNIX

*CORNIX
STORAGE SYSTEMS
FOR LIFE!*

CORBAC

Cornix is manufacturer of storage systems since 1958

CORBAC® • PLASTIC BINS

CORBAC BINS

- The most popular of our bin range !
- Registered CORNIX models. Made in Belgium.
- Available in blue or red (some types are also available in yellow) for an easy positioning in your shelving system or your spare parts storage area.
- Made out of nearly indestructible impact proof polystyrene (PS).
- Grip over the full width of the bin.
- Big label holder.
- Open fronted over the full width to ease stock picking.
- Reinforcement ribs all around.
- Stackable.
- Except for the C5 all bins can be suspended on the CORNIX bin rails.

ATTENTION !

Quantity discount is only available if packing units are respected and for one delivery only at one address !

CORNIX ADVICE

Polypropylene (PP) is more flexible than polystyrene (PS); therefore PP bins will be less breakable but easier deformed than PS bins.

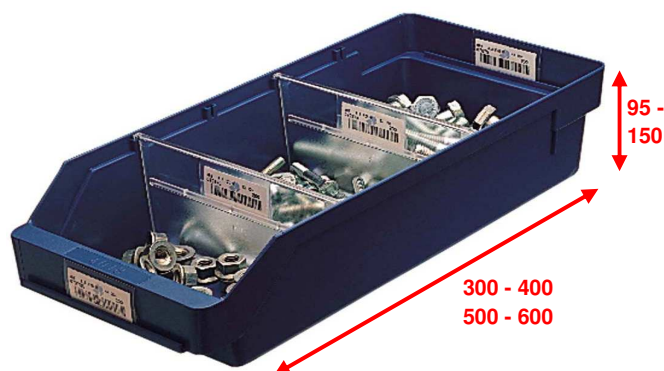

EUROPE'S FIRST MANUFACTURER OF STORAGE SYSTEMS

MODULBOX® • PLASTIC BINS

MODULBOX® : THE DEMANDS OF A NEW GENERATION !

- A size to fit every need • Large opening for a better view of the contents • Transparent dividers for a better view even at the far end of the bin • New label holder logistically adapted • Endstop for ergonomic pull out of the bin

Modulbox is also perfectly adapted for automated systems.

Modulbox Plus shelving is also available with depths of 300 and 500 mm in order to fit perfectly these two Modulbox® sizes. Ask for a free quote.

EUROPE'S FIRST MANUFACTURER OF STORAGE SYSTEMS

EURO STANDARD • PLASTIC CONTAINERS

EURO STANDARD CONTAINERS

Polypropylene containers (except 54 liter containers and bigger : polyethylene high density). Stackable and euro standard dimensions to fit euro pallets.
Two containers 600x400 mm can be stacked on to one 600x800 mm. Two 400x300 mm can be stacked on to one 400x600 mm.

Various types with full bottoms and sides. Perforated bottoms and sides are not available anymore.

Solid side stiffeners allowing a stable storage.
Four grips to ensure an easy handling.
Straight inside corners avoid loss of capacity and the flat bottoms are very suitable for all types of conveyor belts. Suited for food and good chemical resistance (except for some solvents).

Thermic resistance : PP : -20°C up to +80°C (washable up to +115°C). PE-HD : -30°C up to +60°C (washable up to +115°C). Please contact us for adapted shelving systems. We'll make you a quote according to your needs.

HOW TO SUBDIVIDE YOUR EURO STANDARD BOXES ?

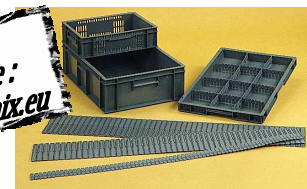

DIVIDERS

For Euro Standard containers and boxes.
Easy installation, simply press together.
Break on the requested length. You can decide yourself how to divide your container.

Colour : grey
Standard length : 1104 mm
Various heights available up to 220 mm.

*For the most
up to date price :
webshop www.cornix.eu*

HEIGHT (mm)	PACKING UNIT	CODE	€/pc
45	60	6A80045P53V

190	20	6A80190P53V	

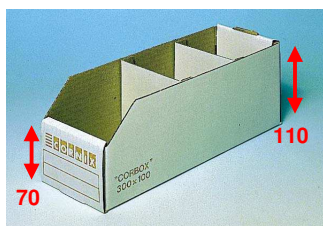

REMOVABLE MODULAR BINS

These removable bins (polypropylene) can be subdivided further in order to allow you to subdivide your Euro Standard container or box 600x400 mm into 4 or 16 compartments. Attention : not suitable for 400x300 mm Euro Standard containers ! Removing these bins is easy because of the ribbed interior surface. Colour : light blue. Further subdivision possible with width dividers or by means of a cross divider. This cross divider is only available together with the removable bin !
